J. O. CROCKETT TO BUILD SOON

Pearson Official to Erect a Handsome Residence in El Paso.

J. O. Crockett, vice president of the Pearson company in the southwest, is planning to build a \$17,000 residence in the next two months. Plans have been drawn for the house, which will be occupied by Mr. Crockett as his home. He has not definitely decided upon a location for the house, but is considering a number of places in north El Paso.

The house will be built of Hocking valley brick, the first large house in El Paso to be built of this famous product of the Hocking Valley Products company, of which Mr. Crockett is vice president. The tapestry style of rough brick will be used in the interior and the owner is considering the use of a blend of several colors in the exterior finish. It will have heavy columns supporting the galleries and there will also be of the Hocking valley brick.

The Crockett residence will have nine rooms, two sleeping porches and a large basement. The basement will include a glass enclosed dining room with a tapestry brick fireplace. The living room and reception rooms downstairs will also have fireplaces, as will two bedrooms upstairs. The Stickley system of heating will be used. This will be another unique feature of the residence. Instead of the regulation hot air furnace, the fireplaces will be arranged in the form of the drum of a hot air furnace. This will heat the air, which will be conveyed to other rooms in the house which do not have fireplaces.

The downstairs will be finished in quartered oak and will have oak floors throughout the house, both upstairs and down. There will be five bathrooms, two in the basement and three on the second floor. The finish of the interior, with the exception of the downstairs rooms, will be of white enamel. The three main rooms on the first floor will be thrown together as one and paneled in oak.

The contract is to be let as soon as a location is decided upon and work will start on it before Sept. 1.

SYSTEM ALL SHOT TO PIECES

TERRIBLE EXPERIENCE, YEARS OF ANGUISH NOW ENDED.

A remarkable instance of renewed vitality has just been reported to Dr. Peter Hoffman, the noted New York Stomach Specialist. A woman was a perfect wreck from a weak and dreadfully diseased stomach and nervous system, or badly shattered nerves. Several noted doctors had given her up. Reading several wonderful cures by BISLAC she bought a 50c box and after a few doses she began to realize she had found a cure, her stomach did not distress her any longer and her nerves were becoming much quieter and steadier. She took BISLAC regularly and now states she has completely recovered her lost vitality and feels like a new woman. This is only one instance of what BISLAC will really do. BISLAC is making remarkable cures daily and is recommended by hundreds of physicians. If you are a sufferer ask your druggist for a 50c box. If he is unable to supply you send 50c to Western Agency, Dr. Peter Hoffman Medicine Co., 115 Ocean Ave., Long Beach, Cal., and a box of BISLAC together with BOOK ON HEALTH HINTS will be sent post-paid. BISLAC is guaranteed to cure worst cases or money refunded.

RESENTS CRITICISM OF HIS NEW PICTURE MACHINE
Because he asserted that William J. Foster, a former player at the Majestic theater, tried to "degrade" him and his machine, William Rhodes said that Tuesday afternoon he called Foster and struck him with his fist. Rhodes was arrested by the police Tuesday afternoon on a charge of fighting. Wednesday morning he was brought up for trial before Judge R. H. Rhodes, who is acting as judge of the corporation court during the absence of Adrian Pool, and was fined \$5. Rhodes testified that for the welfare of the business at the theater he had suggested the purchase of a new picture machine. The machine was installed, he said, and Foster tried to degrade it and him.

NINTH INFANTRY RETURNS FROM ISLANDS

Transport Thomas Carries Soldiers and Wives; a Birth on the Way.

San Francisco, Calif., Aug. 14.—The transport Thomas, in yesterday from the Philippines, was the most completely domesticated vessel of war that ever sailed through the Golden Gate. She brought 72 soldiers' children, among them the new born son of private P. A. Stader, 18th coast artillery. The baby was christened Thomas, for the transport on which he was born, and quartermaster captain, Alexander MacNish, stood godfather. He will begin life with a bank account of \$150, made up for him by his fellow passengers.

The Thomas brought back the Ninth Infantry from duty in the Philippines.

FRIGHT CONGESTION AND SHORTAGE OF CARS FEARED

Kansas City, Mo., Aug. 14.—Freight congestion and a shortage of cars are being predicted by railroad men of the central west. The chairman of the association of Western Railways has issued an appeal to industrial traffic managers and commercial organizations to aid in modifying the congestion.

"The appeal asks that all lumber, cement, coal and such freight be moved in the next few weeks before the railroads are staggering under the crop movement."

It is pointed out by railroad men that the surplus of cars on July 11, 1911, was 149,972, and that this was reduced on Oct. 25 to 24,532. This year the surplus of cars on July 18 was 68,922, and if the reduction is as great as last year, there will be a shortage approximately of 69,000 cars by the end of October.
